Môže Machine Learning zachrániť budúcu úrodu vína? Vyzerá, že áno!

Name: Stanislav Hrivňak

Agenda

- 1. Definícia problému ochorenie ESCA
- 2. Machine Learning vs. Deep Learning je to to isté?
- 3. Ukážka kódu riešenia (Python) pre "klasický" Machine learning
- 4. Ukážka kódu riešenia (Python) pre Deep learning
- Ukážka implementácie mobilnej aplikácie a Flask aplikácie mapy výskytu
- 6. Vízia budúcnosti

ESCA – choroba 21. storočia vo vinárstve

Fatal Wood Diseases Affect 12 Percent of French Vineyards

© Brett Jones | Esca kills individual vines in otherwise healthy vineyards

Esca and other wood-borne fungal diseases now cause the death of 5 to 7 percent of vines annually in France.

By Wink Lorch | Posted Wednesday, 15-Oct-2014

Fatal wood-borne fungal diseases affecting vines have become a national issue in France, it was announced last week, after research showed that almost one-eighth of the country's vines have fallen prey to the diseases.

Working alongside the French Vine Institute (IFV), France's Assembly of Chambers of Agriculture (APCA) will provide greater support to growers trying to find solutions to the problem.

Jean-Pierre Van Ryskensvelder, director of the IFV, said: "Wood diseases are a national crisis. They are responsible for 12 percent of the <u>French</u> vineyard area being non-productive. This represents nearly 100,000 hectares (250,000 acres) of vineyards giving an estimated loss of 1 billion euros."

Náznaky riešení

Hackathon: "Save the vineyard!"

Machine Learning

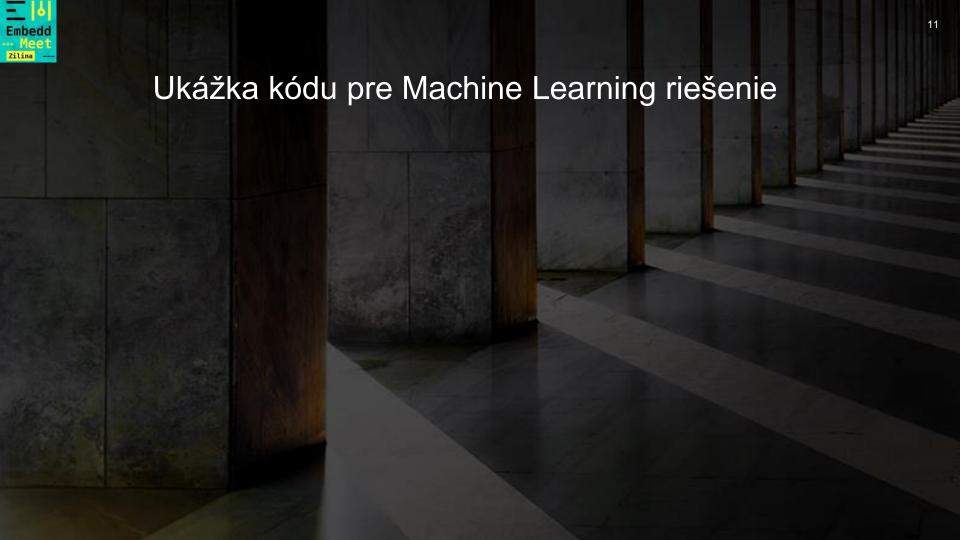

- "Ručný" feature engineering potrebný data preprocessing
- Hardwarovo menej náročné (CPU,RAM)
- Na tréning stačí aj menej dát
- Menej komplexné modely limitovanejšia performance
- Zvyčajne dobre interpretovateľné

Deep Learning

- Automatický feature engineering možnosť "surovejších" dát
- Hardwarovo viac náročné (CPU/GPU,RAM)
- Na tréning potrebuje veľa dát
- Komplexnejšie modely v mnohých úlohách lepší performance

Zvyčajne ťažké na interpretáciu

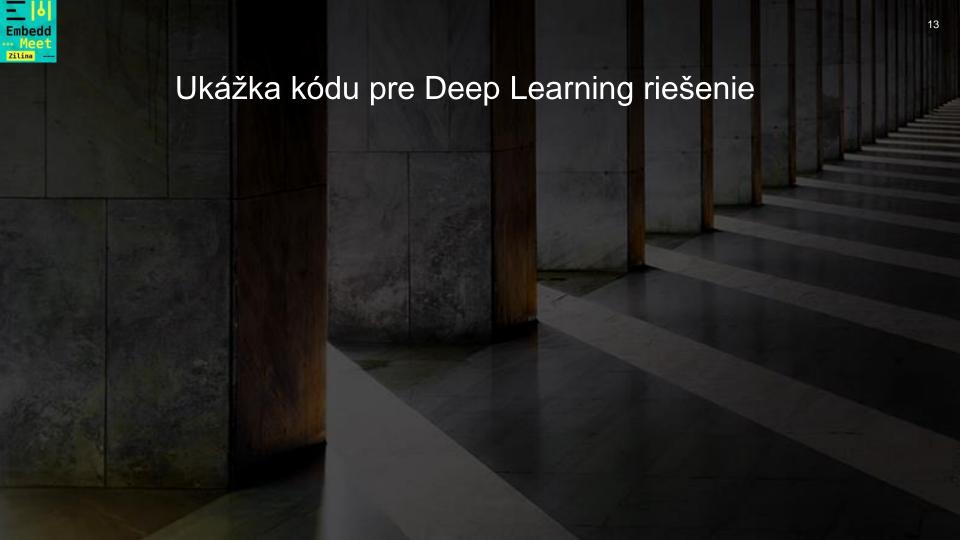

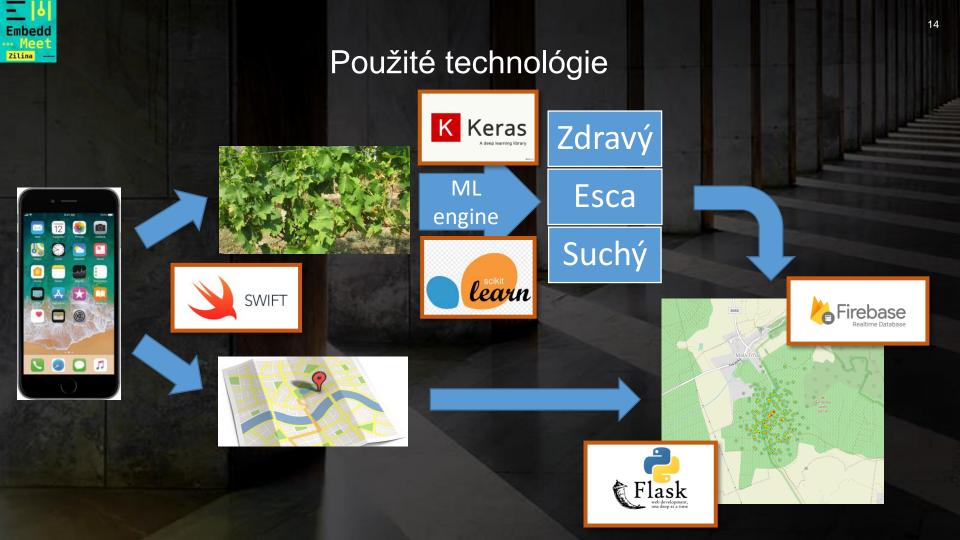

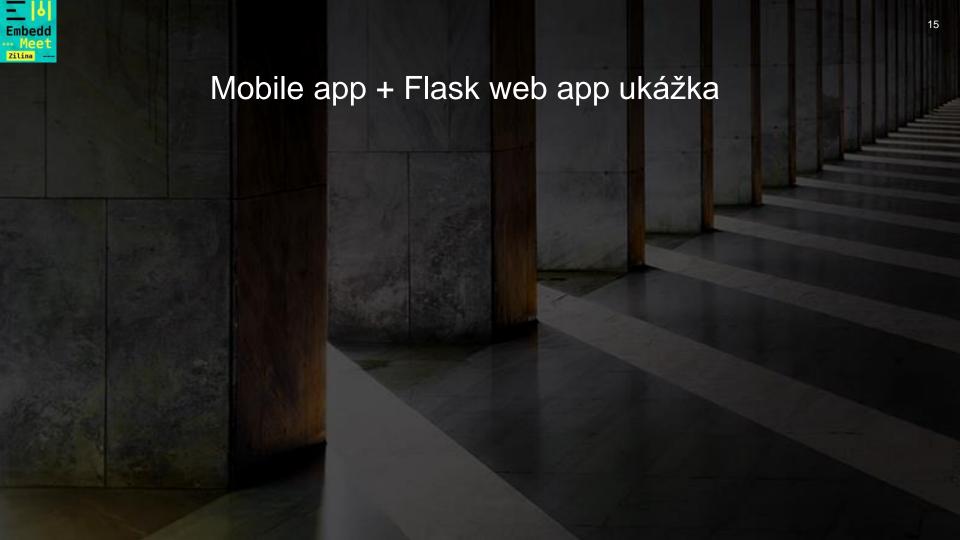

Ako sa to naučiť

- Machine Learning course (Andrew Ng Coursera)
- https://www.coursera.org/learn/machine-learning
- CS 229 Machine Learning (Stanford)
- https://www.youtube.com/playlist?list=PLA89DCFA6ADACE599
- Deep Learning specialization (Andrew Ng)
- https://www.coursera.org/specializations/deep-learning

Thank you
